

National On-Line Housing Survey

February 9, 2010 | [The Wellesley Institute](#)

Help build a new national housing plan for Canada from the community up. The Wellesley Institute would like you to take 20 minutes or so to complete an [on-line survey](#) as a first step in joining an emerging national housing and homelessness network that is working towards a national housing strategy that would support Canada's diverse communities and meet their housing needs.

This survey is based on the recommendations from the recent Senate Report "In from the Margins: A Call to Action on Poverty, Housing and Homelessness."

The goals of the survey are:

- to identify the recommendations of the report that are most important and relevant to the work of community-based housing groups (by province and territory)
- hear from you and others about actions that you are taking on housing, homelessness and poverty

See Wellesley article [here](#). *Please circulate widely.*
